

TRAVEL PROTECTION/INSURANCE WAIVER

Lake Shore Travel offers many optional products and services to enhance every travel experience. Options such as travel protection/insurance help protect passengers and their investment, but are NOT automatically included in the cost of an itinerary to protect against third party default or bankruptcy, delay, trip interruption, trip cancellation, emergency medical expenses, emergency medical evacuation/repatriation, baggage loss, baggage delay, travel assistance and more.

To cover many of the issues that might prevent a travel supplier from completely providing their services to you (including the potential of financial default or bankruptcy), Lake Shore Travel strongly recommends the purchase of travel protection/insurance. While no one travel insurance company can cover all circumstances, Lake Shore Travel does offer its clients access to several reputable travel insurance companies. Please read any travel insurance policies carefully and if you have any questions, please call the travel insurance company for clarification, since they have the final word on what is covered by a claim and what is not.

IMPORTANT NOTE: You are advised that you need to take the appropriate protection/insurance within a certain number of days from the deposit being paid in order to avoid waiving any pre-existing medical condition. The timeframe is imposed by the travel insurance company and is typically 7 to 14 days.

Travel Protection/Insurance is offered and strongly recommended for everyone. If I do not elect to accept travel insurance/trip protection, I understand that I am responsible for all charges, regardless of the reason.
